SUMMARY

Product Manager and Co-Founder with 2+ years of experience leading end-to-end product development and commercialization across life sciences and sports media. Skilled in authoring PRDs, cost and pricing models, consumer messaging, and coordinating cross-functional teams using Agile. Drove ~\$1.1M in annual revenue and reduced product defects by 12%. Currently pursuing an MS in Engineering Management.

EDUCATION

University of Southern California | *Master of Science, Engineering Management* (GPA: 3.5) **Aug 2025 - May 2027**
Vishwakarma Institute of Information Technology (VIIT) | *B.Tech, Computer Science* (GPA: 3.8/4) **Aug 2020 - May 2024**

PROFESSIONAL EXPERIENCE

Oxanto (Life Sciences Startup) **May 2023 - Jul 2025**
Co-Founder | Product & Operations Lead **Pune, India**

- Defined product strategy and product commercialization lifecycle for 12 products, authoring PRDs, setting roadmaps, and coordinating cross-functional teams (Engineering, QA, Design, Operations)
- Led a cross-functional team of 20+ using Agile sprint planning and reviews, improving on-time delivery of product milestones consistently across quarters
- Designed and shipped an internal tracking tool to centralize approval workflows, defect monitoring, and launch-readiness metrics, using customer feedback loops and reducing product defects by 12%
- Led go-to-market (GTM) strategy with five international distribution partners, driving market entry and expansion across multiple geographies
- Tracked launch KPIs and delivery timelines across product lines using KPI tracking and reporting frameworks, contributing to ~\$1.1M in annual revenue

Radiant Sports Management (Sony TV) **Mar 2024 - Sep 2024**
Product Development Intern **Delhi, India**

- Supported product planning for four sports media lines by building cost and growth models in Excel (including PivotTables and VLOOKUP) that drove ~25% expansion in strategic initiatives
- Translated stakeholder requirements into product development feature specs and execution plans, aligning content and operations teams
- Coordinated cross-functional delivery (operations, technology) to launch new product features, improving deadline adherence by 20%

Piyush IT Services Pvt. Ltd **Sep 2023 - Dec 2023**
Project Coordination Intern **Pune, India**

- Gathered and documented detailed requirements with engineering, QA, and design teams for a multi-sided mobile application
- Drove end-to-end execution including UI planning, QA feedback loops, and release coordination from spec to launch
- Proposed adoption of a centralized project management tool (Jira/Asana) to improve sprint tracking visibility and delivery consistency

Asian Institute of Technology **Jun 2023 - Aug 2023**
Business Operations Intern **Bangkok, Thailand**

- Developed stakeholder engagement and partnership plans with 14+ international academic and industry institutions to support collaborative projects
- Drafted process improvement guidelines with senior leadership using customer insights to enhance operational execution
- Streamlined cross-team workflows, improving project turnaround time and data accuracy

PROJECTS

Cross-Functional Program Management & Process Optimization | *USC* **2025**

- Managed product deliverables and inter-team dependencies across five Agile sprints, ensuring on-time delivery and cross-functional alignment
- Analyzed workflows using advanced Excel (PivotTables) to identify bottlenecks, optimizing task sequencing and reducing execution delays by 15%
- Built risk logs and mitigation plans to prevent schedule slippage and improve delivery reliability
- Defined OKRs and tracked KPIs using Excel dashboards and PowerPoint reports to inform sprint planning, improving team task completion rate by 20%

Self-Initiated Product Case Study | *Zomato* **2025**

- Identified a declining user engagement loop; 55% of users forget to review post-delivery due to lack of in-app prompts
- Authored a comprehensive PRD covering problem validation, consumer personas, journey mapping, and five prioritized solutions using RICE scoring to guide product development and brand strategy
- Designed wireframes and system architecture in Figma, defining a North Star metric with L1-L3 supporting metrics to measure feature impact

LEADERSHIP & INNOVATION

VIIT, Pune | *President - Entrepreneurship Development Cell* **Oct 2022 - May 2024**

- Directed 250+ students; organized flagship summit with 2,000+ attendees; secured sponsorships from BMW, Peter England, and Red FM
- Recruited and mentored a 500+ member team through structured onboarding and leadership programs

VIIT, Pune | *General Secretary* **Aug 2023 - May 2024**

- Managed cultural and technical events serving 1,000+ students; launched VIIT's first Web3 program, mentoring 50+ students in blockchain technology

SKILLS

- Product & Program Management:** PRDs, product management, roadmap planning, backlog prioritization, Agile & sprint planning, stakeholder management, risk management, user story writing, feature prioritization (RICE), customer feedback loops, OKRs, competitive analysis, market research, A/B testing, wireframing, Figma, Product Development, Product Commercialization
- Data Analysis & Visualization:** Advanced Excel (PivotTables, VLOOKUP), SQL, Tableau, Power BI, Google Analytics, KPI tracking and reporting
- Agile Execution:** Scrum, Kanban, sprint planning, Jira, Asana, Trello, cross-functional team leadership
- Tools:** Microsoft Office Suite (Word, Excel, PowerPoint, Outlook), Google Workspace (Sheets, Docs, Slides), Python
